PRODUCT SECTIONS

- easy comparison
- complete specifications
- intelligent purchasing

eem — Electronic Engineers Master saves you engineering, specifying and purchasing time. Manufacturers' catalogs are grouped under easy-to-remember headings.

The 56 sensible Product Sections broadly categorize related electronic components, equipment, materials, instruments and systems, and fabrication services, enabling you to quickly compare and evaluate similar items.

To pinpoint or locate specific products within these catalog pages, always refer to the Product Index (Green Pages).

These are the 56 eem product sections:

PRODUCT SECTION	PRODUCT
1100	Amplifiers, Audio, Operational, etc.
1200	Antennas & Accessories
1300	Audio Equipment & Accessories
1400	Cabinets, Chassis, Containers, Racks, Boxes, etc.
1500	Capacitors (All Types)
1600	Chemicals (Acids, Adhesives, Coatings, Lubricants, Paints, Varnishes, etc.)
1700	Circuit Assemblies, Circuit Boards, Breadboards & Breadboarding Kits
1800	Coils (Inductors, Chokes), Assemblies, Forms
1900	Communications Equipment (Broadcast, Facsimile, Telephone, Television)
2000	Computing, Data Handling Equipment & Accessories
2100	Connectors, Electrical (Clips, Jacks, Plugs, Receptacles, Sockets, Terminals, Terminal Boards)
2200	Controls Control Components & Systems
2300	Crystals, Tuning Forks, & Accessories
2350	Delay Lines (All Types)
2400	Dials, Knobs, Handles, Panel Components
2450	Display Devices & Components
2500	Fabricated Mechanical Parts (Bearings, Cores, Gears, Magnets, etc.)
2550	Environmental Test Equipment
2600	Fans, Blowers & Cooling Equipment
2700	Filters
2800	Hardware, Non-Current Carrying (Bolts, Fasteners, Nuts, Screws, Washers, etc.)
2900	Instruments, Measuring & Test
3000	Instruments, Graphic Recording
3100	Insulators, Insulating Materials & Parts
3130	Integrated Circuits & Hybrid Microcircuits
3150	Manufacturing, Subcontracting, Custom Fabrication
3200	Materials, Raw (Metals, Plastics, Glass, Rubber, Cloth, etc.)
3300	Medical Electronic Equipment
3400	Microwave, Radar Equipment, Components & Accessories
3500	Motors, Rotating Components & Accessories
3600	Nuclear & Radiation Equipment
3700	Photoelectric Equipment & Components
3800	Optical Equipment & Accessories
3900	Pilot & Signal Lamps, Lights & Accessories
4000	Power Supplies, Converters, Inverters, Batteries, etc.
4100	Production Machinery & Automation Equipment
4200	Engineering Aids (Books, Drafting Equipment, Slide Rules, Microfilm Equipment, Whiteprinters)
4300	Recording Equipment (Non-Audio Types)
4500	Relays
4600	Research, Development, Engineering Services
4700	Resistors, Fixed
4750	Resistors, Variable (Potentiometers & Rheostats)
4800	Semiconductors, Semiconductor Devices, Rectifiers (Non-Tube Types)
4900	Servomechanisms & Components
5000	Studio Equipment
5100	Switches, Circuit Breakers, Fuses, Protective Devices
5200	Telemetering Equipment
5300	Thermal Devices, Thermistors, Thermocouples, Thermopiles, Thermostats, etc.
5400	Tools (Hand & Power); Soldering Supplies
5500	Transducers & Associated Equipment
5600	Transformers
5700	Tubes, Tube Parts, Shields, Inserts, etc.
5800	Ultrasonic, Sonic, Subsonic Equipment
5850	Vacuum Equipment & Accessories
5900	Vibrators, Choppers, etc.
6000	Wire, Cable, Harnesses, Accessories

electronic engineers master **eem 69|70**

This 1969-70 edition of **eem — Electronic Engineers Master** — is the twelfth and largest volume published to date. You will find included **more** catalog data than ever before, systematically presented in the 56 **eem** product sections. (See page 5 or page 500 for a list of the 56 sections.)

Time-Saving Product-Information System

We have drawn upon the experience of hundreds of engineers and purchasing agents to develop a unique time-saving product-information system. It incorporates these three major elements:

1 **eem** serves as a bound catalog file for the complete product data of many hundreds of manufacturers. The Catalog Section is divided into 56 product sections to simplify and speed the comparison and evaluation of similar products. An industry-wide Product Directory plus a verified Manufacturers Directory place the products and sales offices of more than 6300 manufacturers at the fingertips of the user. Added to this are comprehensive directories of trade names and sales representatives.

2 **electronic products,** the electronics industry's only magazine devoted 100 per cent to products, keeps engineers, scientists, researchers and purchasing agents up-to-date on all phases of products — their application and selection. All products in **electronic products** are arranged under the **eem** filing system.

3 **The File System,** based on the 56 **eem** product sections, fulfills the industry's need for an all-inclusive system that is flexible enough to accommodate manufacturers' catalogs and data sheets as well as literature from any and all sources. (Refer to page 3301 for details.)

NOTE: Prices are furnished for information only — they are not offered as quotations. Participating manufacturers reserve the right to change specifications, revise prices or discontinue items without notice. While every precaution has been taken to assure accuracy in content, the publisher cannot be responsible for manufacturers' claims and representations; nor can any guarantee be made against the possibility of error or omission.

Circulation Policy

eem — Electronic Engineers Master is distributed annually at no charge to qualified engineers, scientists, researchers and purchasing agents, affiliated with North American manufacturers, research laboratories and government agencies. To qualify for a subscription, you must be actively engaged in application, selection, specification, design or procurement of electronic components, materials, equipment and related fabrication services.

Persons receiving **eem** annually also receive **electronic products** monthly at no charge.

Official subscription form may be obtained by submitting the following on your company's letterhead: (1) name and title, (2) job function and duties, (3) main products manufactured or developed by your company, division or laboratory. Please include building number or mail station with address. Letters must be signed personally. Group qualification is not acceptable. The cost of **eem** to nonqualified personnel is $20.00 per copy.

No portion of this book may be reproduced without express permission of the publishers. Library of Congress Catalog Card Number 58-9813.

PRODUCT INDEX AND DIRECTORY

The Product Index & Directory contains over 3100 product headings and cross references. Manufacturers of each product are listed alphabetically in two groups under each heading. The first group **(bold face)** are those manufacturers whose catalog pages appear in the white section. Catalog page numbers are shown only when information on the specific product is included in the white section.
